

Polarised Holders for High Energy Lithium-Ion Batteries

K1098P

These polarised battery holders prevent an incorrectly inserted battery from connecting with the battery contacts.

Polarised SMT and THM Lithium-Ion holders for 18350, 18650, 20700, 21700 and 26650 batteries have joined our range of premium battery holders. With polarized contacts the advanced design holders meet the increased demands for rechargeable, higher energy, light weight, batteries for new generations of electronic products.

Ruggedly built and durable, these compact holders feature low profile, heat resistant nylon housings and gold-plated phosphor bronze contacts for the SMT holders or tin-nickel plate for the THM holders. They are ideally suited for use with many consumer and industrial electronic products.

Their versatile design accommodates lead free solder and traditional reflow processes. Battery installation and/or removal does not require tools. Available in single and dual cell configurations.

* This range is newly released. Please check stock levels before ordering.

High Performance SMT Plastic Battery Holders

Base Material	Heat resistant nylon UL 94 V-0
Mounting	Reflow solder compatible
Contact Material	0.30mm stainless steel
Finish	Gold flash

Part #	CELLS	PACKAGING	CELL SIZE
K1050	1	50 Pcs / Tray	2/3A, CR123A
K1080	2	25 Pcs / Tray	
K1010	1	50 Pcs / Tray	1/2AA, CR2
K1096P	1	50 Pcs / Tray	18350
K1098P	2	25 Pcs / Tray	
K1042P	1	50 Pcs / Tray	18650
K1048P	2	25 Pcs / Tray	

High Performance THM Plastic Battery Holders

Base Material	Heat resistant nylon UL 94V-0 or PBT UL 94V-0
Contact Material	0.30mm stainless steel
Finish	Tin-nickel plate

Part #	NO. CELLS	PACKAGING	CELL SIZE
K1051	1	50 Pcs / Tray	2/3A, CR123A
K1079	2	25 Pcs / Tray	
K1011	1	50 Pcs / Tray	1/2AA, CR2
K1095P	1	50 Pcs / Tray	18350
K1097P	2	25 Pcs / Tray	
K1043P	1	50 Pcs / Tray	18650
K1049P	2	25 Pcs / Tray
